High quality
Ergonomic design

...
Last year, we went to Colorado Canyon for taking pictures. Took with EIMAGE OSCAR B10 shoulder bag. We found this product is amazing with its pretty practical functions. Containing our NIKON D3 , lens, battery, tripod, laptop and many accessories. Full padded internal dividers protected them very well. As its wide opening, we could take out cameras any time, not miss any scenic beauty. Because of its ergonomic back systems, even if after long time travelling, we still felt very relaxed. Choose Eimage, get what you want, but with lowest budget.
